1. The drawings filed 18 March 2004 are approved.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: this application is in condition for allowance except for the presence of claims 1-6 directed to method Group I non-elected without traverse (see section 1 of the detailed portion of the office action mailed 05 July 2006). Accordingly, claims 1-6 been cancelled. The examiner notes that the method claims are of broader scope than the allowed article claims and that therefore rejoinder is not possible. No extension of time is required as the examiner's amendment is being made within the one-month extension of time paid for by applicant in order to enter the paper filed 20 October 2006.

3. The following is an examiner's statement of reasons for allowance: applicant has cancelled all claims that do not depend upon claim 11, which was previously objected to as being
